

## **Peran UNESCO Dalam Konservasi Natural**

### **ABSTRACT**

The aim of this research is to know and analyze how optimize UNESCO do the conservation to natural heritage stated at Taman Nasional Komodo. This is a kind of descriptive thesis with library research method. The writer is trying to analyze and declare what was really happened in Taman Nasional Komodo. All data collected by library research and based on the true resources, Balai Taman Nasional Komodo. After all the research was done, it can be concluded that the UNESCO's role of work to conserve natural heritage at Taman Nasional Komodo is not optimal as well. There is something to do by the government, coordinate with UNESSCO to develop and maintain the environment around Taman Nasional Komodo better.
